

Indigenous Cultural Competency in Healthcare

Course Overview

\$912

This course provides a foundation in cultural competency. The objective of this course is to have students challenge their personal and cultural biases while learning about decolonized and alternative ways of knowing and engaging in healthcare. The course prioritizes cultural knowledge from Indigenous communities in the regions that CNC serves in Northern British Columbia, while providing groundwork for students to practice with more sensitivity, cultural humility, and respect for all cultures.

This course could be right for you if you are:

- Thinking of working in health care
- Already working in health care
- Wanting to build skills and capacity for cultural humility
- Want to know more about culture awareness, cultural sensitivity, and cultural safety

Approximately one week before the course starts you will receive a confirmation email that provides additional course details.
