

Project Management Fundamentals

Course Overview

\$470

Non-profit organizations, businesses, and government all use project management for special initiatives, resource development, infrastructure projects, innovation, and more. Project management is the center of successful operations across multiple industries. Understanding the elements of efficient project management is at the heart of this course. Work with experienced project management professionals to gain skills in communication, critical thinking, detail organization, and data management.

Approximately one week before the course starts you will receive a confirmation email that provides additional course details.

Prerequisite:

It is helpful if the student has a project they are already working on in order to directly apply their skills/learning.

Additional Info:

This course is comprised of 15 hours of online lectures and 5 hours of self-directed online learning.
